

There are three parts to accessing government-funded Ig for your patient, as summarised in the flowchart below:

1 confirm the patient's eligibility 2 reques

2 request product through BloodSTAR

ensure you understand your obligations and responsibilities as a healthcare professional prescribing, authorising, dispensing and managing Ig. Further detail is provided here <a href="https://www.blood.gov.au">www.blood.gov.au</a>

# Have you confirmed your patient's eligibility for Government funded IVIg/SCIg?

#### Not sure?

Check patient eligibility at www.criteria.blood.gov.au

# **Eligible**

Patient **IS** eligible for Government funded IVIg/SCIg

### Not eligible

Medical Officers may be able to seek access to immunoglobulin products through a jurisdictional direct order (JDO). Learn more at:

lg access outside the national blood arrangements

For clinical advice, contact Australian Red Cross Lifeblood: <a href="https://www.transfusion.com.au/contact">www.transfusion.com.au/contact</a>
