

# Patient Blood Management Guidelines: Module 6 – Neonatal and Paediatrics

## ERRATUM

The following error was identified in May 2020. The correction has been made to the electronic version of the guideline. The correction will be incorporated into the next reprint of the hard copy.

**a) Iron polymaltose (Ferrosig) dosing table**

The dosing guidance in column one of the table should state DOSES ARE IN mL (100mg/2mL or 50mg/mL solution), not DOSES ARE IN mL (100mg/mL solution) (page 218)

The following errors were identified in April 2016 following publication. All corrections have been incorporated into the electronic and hard copies of the guideline.

**a) Neonatal and Paediatric patients with sickle cell disease – effect of hydroxyurea**

Recommendation 4 (pages 5, 71, 232, and 246)

Footnote b should refer to R2 and PP22, not R1 and PP21

**b) Clinical commentary – oral and/or parenteral iron in preterm and low birth weight infants**

The clinical commentary should refer to PP13, not PP12 (page 61)

**c) Clinical commentary – platelet transfusion in paediatric patients with cancer**

The clinical commentary should refer to PP31, not PP30 (page 87)

**d) Future directions**

Footnote s should refer to R2, R4 and PP11, not R1, R4 and PP11 (page 161)

**e) Appendix H Paediatric haemoglobin assessment and optimisation template**

Reference in first column should refer to Table H.1, not Table G.1 (page 210)
