

AUSTRALIA:THE LUCKY COUNTRY.

THE HEALTHCARE SYSTEM.

WE ARE LUCKY TO
LIVE IN A COUNTRY
WITH BEAUTIFUL
SCENERY, FRIENDLY
PEOPLE.
BUT THE MOST
IMPORTANT THING
THAT WE SHOULD
APPRECIATE IS :

OUR HEALTHCARE
SYSTEM.

- DO YOU KNOW
HOW MANY PEOPLE
ARE DYING IN OTHER
COUNTRIES AROUND
THE WORLD
BECAUSE THEY
COULD NOT AFFORD
THEIR MEDICAL
TREATMENTS?
- DO YOU KNOW
HOW MUCH IT CAN
COST TO DO A
SIMPLE BLOOD TEST?
- DO YOU KNOW THE
COST OF
TRANSFUSION PER
PATIENT HERE IN
AUSTRALIA?

THE COST TO TREAT A
20 YEAR OLD MALE
WITH FACTOR VIII
DEFICIENCY(HAEMOP
HILIA A)
WITH FACTOR
CONCENTRATES(BIOS
TATE) OVER THREE
MONTHS PERIOD IS:
\$90000.
FUNDED BY THE
AUSTRALIAN
GOVERNMENT AND
BY THE STATES AND
TERRITORIES.

THE AVERAGE COST OF
BLOOD PRODUCTS TO
TREAT:

- BLEEDING PATIENT IN
48 HRS IS : \$12000.
- PATIENTS USING
PRODUCTS
THROUGHOUT THE
YEAR: \$ 62000.
- PATIENTS WITH FVIII
INHIBITORS
(NOVOSEVEN) IS
MINIMUM : \$150000,PER
YEAR.

CAN YOU IMAGINE IF THESE PATIENTS
ARE LIVING IN A COUNTRY WHERE THERE
IS NO GOVERNMENT FUNDED
HEALTHCARE, THEY WOULD BE DEAD BY
NOW.

AP West Region 
@APWestRegion

Leon Lederman, an experimental physicist who studied subatomic particles, has died at 96 after selling his Nobel Prize for \$765,000 at an auction to help pay medical bills.

POTUS is a POS
@LOLBeReasonable

Sold his Nobel Prize to pay medical bills. If you're an American, be ashamed.

IN UK,A SURVEY THAT
WAS PUBLISHED IN
JANUARY
2001,FOUND THAT A
THIRD OF HOSPITALS
FAILED BASIC
HYGIENE CHECKS.
HOSPITAL-ACQUIRED
INFECTIONS KILL 5000
PEOPLE AND COST
THE HEALTH SERVICE
1bn POUNDS A YEAR.

IN MY COUNTRY:
LEBANON.

- NO MONEY, NO TREATMENT.
- VERY TINY BEDS IN ED.
- NO CURTAINS BETWEEN PATIENTS BEDS.
- RUBBISH BINS ARE FULL.

SOMETIMES WE TAKE
THINGS FOR
GRANTED, NOT
KNOWING HOW
LUCKY WE ARE TO
HAVE SUCH AN
AMAZING
HEALTHCARE
SYSTEM..

THANKS AUSTRALIA.
